The Pacific Advantage[®]

...since 1941

- Tri Poly free
- Individually quick frozen
- Belly flap removed
- Shallow skinned

Quality Tilapia. No Compromises.

Tilapia has been around for centuries. Also known as St Peters Fish. It is rumored to be the fish that Christ multiplied to feed the thousands. Pacific Seafood sources our tilapia from facilities that have received Best Aquaculture Practice certification. This assures that all our products are processed in facilities that have been closely and continuously audited for food safety, sustainable environmental standards, traceability of our fish and socially responsible practices of employees.
