

BioGan™ 4-2-0

100 % Natural Organic Fertilizer from Crab Shell

BioGan™ 4-2-0 is a natural, organic fertilizer derived from the fresh cuttings and shells of Dungeness Crab (*Metacarcinus magister*) harvested and processed for human consumption. All processing is domestic and shore-based. All facilities are federally inspected. Our fertilizer is registered for use in organic agriculture by the Washington State Department of Agriculture (WSDA) Organic Food Program. It contains no additives for processing or preservation.

BioGan™ 4-2-0 is a concentrated source of water insoluble, slow-release nitrogen. In addition, it supplies phosphorus and calcium, and a complete array of major and secondary soil nutrients. Chitin content of this fertilizer is approximately 15 %. Our fertilizer is ideal for establishing fertile soils and growing healthy plants. It releases nutrients slowly and evenly as it decomposes through natural soil microbial activity.

BioGan™ 4-2-0 is a product of the United States of America. It is traceable with documentation showing source and processing of raw material utilized in manufacturing. Our company benefits from vertical integration within a human seafood company, Pacific Seafood Group, through access to their electronic tracking of catch, landings, and processing; and the subsequent disposition of fresh crab cuttings. Pacific Seafood Group maintains strict quality standards based on scientifically-derived FSMA/HACCP systems at all our locations to ensure that the product you receive is the highest quality.

Customers are always welcome to visit our facilities and review our practices. Our definition of excellence, “*consistently doing your best and always striving to do better*”, demonstrates our commitment to providing a traceable, sustainable and wholesome product to our customers and yours.

Guaranteed Analysis

Total Nitrogen	4.0 %
Ammoniacal Nitrogen	0.0 %
Water Insoluble Nitrogen	3.5 %
Water Soluble Nitrogen	0.5 %

Product Characteristics

Color	Light brown to off-white
Odor	Mild crab
Physical	From whole shell to <2.5 mm
Density	Varies depending on size desired
pH	9.5 – 10.0
Storage	Store in a cool, dry place in original packaging
Stability	36 months when appropriately stored

Certification

This product maintains a Material Registration Certificate from Washington State Department of Agriculture, and is verified to comply with the USDA National Organic Standards (7 CFR Part 205).
Registration #: 2165

Packaging

Bulk bags

Processing Statements

Allergen: This product contains crustacean shellfish and is processed in a facility that processes fish.

This product is not intended for human consumption.

The values for major/secondary nutrients, micronutrients, other nutrient properties, and product characteristics are typical and expected.

Manufacturer

BioOregon Protein, Inc.

P.O. Box 429

1935 NW Warrenton Drive
